

Digital Product Passport & Tracing: projects joining forces

1st ICCS Digital Product Passport event – ONLINE

Thursday 14th of November, 10:00-13:00 CET

This year's featured project: DigInTraCE

Draft Agenda

Start	End	Speaker	Topic		Role, affiliation
10:00	10:10	Lucyna Lekawska-Andrinopoulou	Welcome and Introduction		Senior researcher, ICCS
Session 1					
		Special guest	Topic		Role, Affiliation
10:10	10:25	Franziska Zibold	Towards sustainable products: DPP - State of play		Policy Officer, DG GROW, EC
10:25	10:40	Susanne Guth-Orlowski	DPP Pioneers: Batteries sector (TBC)		Founder 4TheRecord, DPP Specialist RAIN Alliance, Technical Advisor Global Battery Alliance
10:40	10:55	Standardization representative	DPP Standardization work – current status (TBC)		JTC24/DS representative
Session 2 – Projects					
		Project	Presentation Title	Product/Supply chain	Speaker
10:55	11:10	DigInTraCE	Towards Dynamically updated DPP. Exploring the link between DPP and advanced sorting techniques.	Wood-furniture, textile	Thodoris Theodoropoulos, ICCS
11:10	11:20	BREAK			
11:20 - 12:45	12 min/ project, including 2 min Q&A	CIRPASS-2	Cross-sectoral DPPs for compliance and beyond compliance	Textiles, electrical & electronic equipment, tyres, construction –	Carolynn Bernier, CEA
		Reconstruct	RECONSTRUCT's Digital Product Passport	Construction materials	Jose Lucas Masero, ITeC
		MöbelPass	Prototyping DPPs for the furniture sector	Furniture	Sarah Fallahi, RISE
		MaDiTraCE	Traceability in Raw Material Supply Chains: Maditrace DPP Approach	Critical raw materials	Doruk Sahinel, Spherity
		Plooto	Plooto: A tool for supply chain traceability and DPP sharing	carbon fibre reinforced polymer, waste/drones, weee for magnets, citrus processing	Kostas Kalaboukas, Magioli

		Theros	DPP and traceability concept for organic foods	Organic and geographical indications food products	Nikos Zacharatos, ICCS
		DPP4Food	Digital Product Pass Concept for a Soy Supply Chain – first insights	Soy supply chain	Alexandra Anderluh
12:45	13:00	Discussion and wrap-up			Lucyna Lekawska-Andrinopoulou, ICCS

Aims of the event:

- *Get to know other DPP and tracing scientific initiatives and researchers involved*
- *To initiate cooperation & ideas exchange*
- *To identify common challenges and strategies towards overcoming them*
- *To present novelties per project*
- ***To understand what we need to consider in the transition from sector-specific towards a common approach***

Scope: The presenters representing projects will be asked to prepare a 10 minute presentation with focus on DPP or tracing solution for selected sector/product being developed within the project (including main challenges encountered in relation to the DPP development/implementation (e.g. ongoing legislation and standardization process, difficulties in collecting data, the accuracy of the data in the DPP, flows complexity), that could contribute to overall discussion towards defining strategies for addressing common challenges and aspects to consider in the transition towards a common approach.
